1. PROJECT/ACTIVITY TITLE: Security Kiosk Canopy Installation	DATE: March 2018
2. PROJECT DESCRIPTION: The purpose of the proposed project is to design and install weather protection and enhanced lighting for existing security kiosks located at the entrances of the Livermore Site. DOE/NNSA needs to ensure a safe and secure work environment for officers stationed at entry points. The project would design and construct a pre-engineered canopy for the security kiosks at the south gate entrance to the Livermore Site. Future work may involve installing similar structures at the west gate security kiosks and/or the east gate security kiosks. The canopy would provide weather protection and enhanced lighting for security personnel. The canopy would include LLNL signage. Footings and support columns would be placed within the existing concrete crash barrier footprint.
